

REVISED PROPOSAL

TITLE: Education Seminar on Sexual and Reproductive Health.

TOPIC: Contemporary information on Family Planning and Emergency Contraception.

BRIEF DESCRIPTION: The main intend for proposing this project is to educate the Public Health Workers/ Community Health Nurses in the 7 Health District in Dominica, with up-to-date information on Family Planning and Emergency contraception. This will be coordinated and conducted in the format of a seminar. Target is the 10 Public Health Nurses in Dominica who supervises the District Nurses and the Community Health Aids.

MAIN OBJECTIVES:

- To disseminate current information to improve technical knowledge and keep abreast.
- To develop a trainer of trainers programme.

ACTIVITIES:

- Lectures through power point presentations and plenary sessions.
- Demonstrations/ illustrations of the various available contraceptives.
- Role- plays activities to enhance participation and understanding.
- Pre and post test activities to assess and evaluate participants' knowledge base and understanding.

CHRONOGRAM:

Total length is an eight (8) hour, one day seminar with an hour lunch period. A total of seven (7) activities will be conducted, with approximately forty five (45) minutes per activity.

MONITORING AND EVALUATION:

- Assess the participants' involvement and interaction during each session.
- Assess the sustained attendances at each session.
- Develop and utilize an evaluation questioner form, ensure each participant complete the form for compilation and analysis.

NEEDED RESOURCES: Finance, materials and equipments such as stationeries, leaflets etc.
